

2025 - WHAT'S NEW WITH THE FRANKIA NOW

# Your journey, your style, your comfort: FRANKIA NOW

With the FRANKIA NOW, the long-established manufacturer is breaking new ground—especially when it comes to space, lighting, design, and detailing. To mark its 65th anniversary, FRANKIA is raising the bar once again, enhancing its 3.5-ton model with an outstanding comfort feature: hot water in record time, thanks to the new Truma CombiNeo heating system. FRANKIA is the first German manufacturer to install this innovation as standard. Want to experience the FRANKIA NOW in person? Visit the Caravan Salon in Düsseldorf, where the semi-integrated model will be showcased in three distinct styles.

## 2025 – WHAT'S NEW WITH THE FRANKIA NOW

STYLE SUN

STYLE OCEAN

STYLE PEACH

Get ready for your space to breathe: the FRANKIA NOW does away with bulky overhead lockers and impresses with smart, integrated storage solutions.

### Designed to suit you: FRANKIA NOW in three styles

Clean sightlines, indirect lighting, organic shapes, and fresh new color combinations—this is FRANKIA's vision of the future of motorhomes. The semi-integrated 3.5-ton model sets new standards in design, light, space, and detail. From the outside, it has a relaxed, sporty look. Inside, a clean anthracite design is complemented by vibrant accents and an exciting mix of materials. Upholstered wall elements add a cozy feel while also improving acoustics. What makes it special: the NOW is available in three distinctive styles—Sun, Ocean, and Peach—reflected in both the interior and exterior design.

### Feel the freedom: a new take on space

Step inside and you'll immediately notice an exceptional sense of openness, created by the unique interior design and a generous 2.13 m ceiling height—something unmatched in comparable models. This spacious feel is enhanced by a smart lighting concept that perfectly showcases the interior at night or in low light. A standout feature: the optional drop-down bed above the seating area also doubles as ceiling lighting. During the day, open sightlines and plenty of natural light create a bright, airy atmosphere. The 3.5-ton model also offers ample storage, from clever multifunctional compartments to a large rear garage.

## 2025 – WHAT'S NEW WITH THE FRANKIA NOW

In the FRANKIA NOW, flowing forms meet meticulous attention to detail—creating a space defined by lightness and well-being.

### What's inside? Smart solutions you won't find anywhere else

It starts in the seating area, with a table that not only rotates and adjusts in height but can also be folded asymmetrically. A highlight here is the multifunctional box, which can be used as a stool, footrest, or storage unit. There's also a storage tower accessible from both the kitchen and the bedroom, offering generous space.

### NEW for 2025: Hot water in record time

FRANKIA and Truma celebrate a premiere: the FRANKIA NOW and FRANKIA NEO are the first vehicles to feature the new CombiNeo forced-air heating system. This 2-in-1 system combines exceptional hot water performance with rapid interior heating:

- **Unlimited hot water:** perfect for long showers—anywhere, anytime, for any number of people
- **Minimal heat-up time:** hot water ready in just 3 minutes
- **Efficient heating:** fast, energy-saving warming of the living space
- Also **operates electrically**—quiet and emission-free; controlled via the Truma iNet X panel

## 2025 – WHAT’S NEW WITH THE FRANKIA NOW

### Caravan Salon Düsseldorf 2026: FRANKIA and Groupe Pilote in Hall 17

In addition to the FRANKIA NOW styles, there's much more to discover at the show—including a world premiere of a new FRANKIA NOCTRA and the FRANKIA TOGETHER Edition. From August 28 to September 6, Hall 17 will showcase FRANKIA's bestsellers and latest innovations, along with highlights from the entire Groupe Pilote — featuring the Yucon microliner and models from Pilote and Le Voyageur.
