

THE NEXT GENERATION OF INTEGRATED LUXURY MOTORHOMES

Highlight for 2027: FRANKIA NOCTRA Liner

With the NOCTRA Liner, FRANKIA is opening a new chapter in the new era of luxury motorhomes. Following the successful launch of the NOCTRA Cruiser as a semi-integrated model, the integrated version of the new generation of luxury motorhomes is now here – featuring a striking new front end, a revolutionary cockpit and a design that sets new standards in the premium segment. Both inside and out, it combines exclusive design, the highest level of comfort and innovative solutions to create an overall concept that reinterprets modern luxury. The NOCTRA Liner 7.6 L and the special NOCTRA Liner 8.3 L, a three-axle model, are among the major highlights of the 2027 season. Production will begin in early 2027, and shortly afterwards the models will be on display for the first time at FRANKIA dealerships.

NOCTRA LINER – THE NEXT GENERATION OF INTEGRATED LUXURY MOTORHOMES

Innovation and luxury come together in the NOCTRA Liner:
The driver's and front passenger's seats are perfectly integrated.

A completely redesigned front end featuring a tapered, sporty grille, LED headlights and a continuous LED strip.

Instead of wing mirrors, a mirror replacement system is available as an option – for even greater comfort and safety.

NOCTRA Liner – A Revolution in Front End and Cockpit Design

Even at first glance, the NOCTRA Liner makes it clear that a new generation of luxury motorhomes is being launched. The newly developed, aerodynamically optimised front end gives the vehicle a powerful, modern presence and consistently carries forward the characteristic NOCTRA design language. Inside, too, FRANKIA has opted for a complete fresh start: the fully digitalised cockpit combines state-of-the-art technology with a tidy, high-quality ambience. The driver's and front passenger's seats are harmoniously integrated into the overall design, creating a seamless connection between the driving area and the living space. The newly designed dashboard extends in one continuous line right up to the driver's seats, emphasising this connection. Practical everyday features are not neglected either, such as two wireless charging pads for smartphones. A key technical highlight is the optional mirror replacement system. Digital camera systems can be used in place of traditional wing mirrors. For added convenience on the road, practical charging points for smartphones are integrated into the armrests of the driver's and front passenger's seats.

The NOCTRA Liner also breaks new ground when it comes to thermal comfort: the dashboard features an integrated ALDE heating system, creating a pleasant warmth in the cab. Comfort is further enhanced by the electric windscreen blackout, which comes as standard. The new NOCTRA Liner thus combines innovation with a cohesive design and exceptional comfort – and makes it clear right from the cockpit what sets the entire vehicle apart: its ambition to redefine luxury in the integrated motorhome.

NOCTRA LINER – THE NEXT GENERATION OF INTEGRATED LUXURY MOTORHOMES

New to the NOCTRA Cruiser and Liner ranges: there are two wood finishes, two upholstery colours and four styles to choose from.

A highlight of the double floor: the large, continuous storage compartment – available with a touch-to-open mechanism and pull-out system as an option.

The clean exterior design is complemented by a unique lighting design featuring underbody lighting on both sides.

NOCTRA Liner – A sophisticated Design Concept

As with the NOCTRA Cruiser, passengers can choose from two luxurious exterior designs. The sporty yet sophisticated 'Light' design comes as standard, whilst the striking 'Dark' design is available as an option. The interior also features an exciting design concept: two wood finishes (Visby and Zelos) combined with clean, anthracite surfaces and – now NEW – four style colours allow travellers to express their personal style. Matt surfaces characterise the modern ambience. The special lighting concept ensures perfect illumination and creates striking accents.

NOCTRA Liner – Comfort reimagined

With the NOCTRA Liner, FRANKIA is consistently reimagining comfort – from the spacious feel and intelligent storage solutions to well-thought-out details. A particular highlight is the newly developed double-floor concept, featuring a through-loading compartment and practical pull-out units. The new flap design focuses on intuitive operation: numerous access points can be opened at the touch of a button. The recessed handles allow for comfortable one-handed opening. On request, the exterior appearance can be made even cleaner thanks to handle-free flaps. Another key feature of the new comfort concept is the rear garage, which is accessible via two side doors and is higher than in any previous Frankia motorhomes. Chequered plate protects the floor and can be supplemented with an anti-slip mat. Compartments ensure greater organisation and storage space, whilst bright lighting makes loading easier at any time.

NOCTRA LINER – THE NEXT GENERATION OF INTEGRATED LUXURY MOTORHOMES

Unique: Every NOCTRA Cruiser or Liner can be fitted with an optional XL panoramic window at the stern.

NOCTRA is revolutionising the open-plan bathroom with a completely new design and a host of clever details, such as a floor-level shower.

The NOCTRA kitchen, with its monolithic design, sets trends and, with its use of solid surface material, embraces luxury materials as standard.

NOCTRA Liner – This is how FRANKIA is bringing the Interior of tomorrow to Life

This is unique: in the FRANKIA NOCTRA, travellers can enjoy a huge panoramic window at the rear, which gives life on board the NOCTRA that perfect ‘inside-out’ feeling. Access to the separate longitudinal beds is made even easier by an innovative step system with rails. The steps can also be used as storage space, and the large, illuminated wardrobes beneath the beds are easily accessible at all times.

The spacious bathroom in the NOCTRA has also been ‘refreshed’ with many clever details and a sophisticated design. The design language features harmonious curves, elegant wall finishes and lighting, as well as black fittings. Special comfort features for that perfect loft feel: the floor-level shower, a large spa shower head, the washbasin made from high-quality solid surface material, and the new mirror cabinet.

The FRANKIA NOCTRA kitchen also sets new standards in terms of fittings and design. The lighting creates an atmospheric ambience and provides perfect illumination. The high-quality monolithic kitchen unit impresses with its generous storage space and depth, a central locking mechanism for

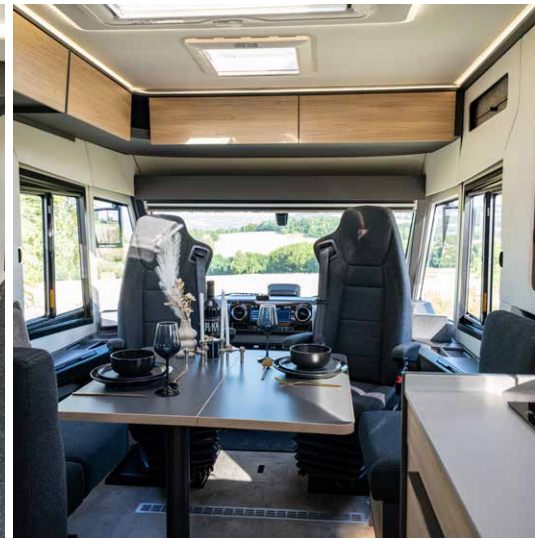

NOCTRA LINER – THE NEXT GENERATION OF INTEGRATED LUXURY MOTORHOMES

A key comfort feature in the interior of the FRANKIA NOCTRA is the floor-to-ceiling pull-out cupboard with an integrated socket.

All FRANKIA NOCTRA models are available in four interior styles. Shown here is the NOCTRA Liner 7.6 L: Forest style

Perfect for couples: sleep in style in the full-length beds at the stern and enjoy the extra space provided by the bow extension.

all drawers, and an elegant designer tap. The worktop, made from high-quality solid surface material, is complemented by a wraparound protective edge and a practical extension. Another highlight is the floor-to-ceiling pull-out cupboard with an integrated socket. The compressor fridge, with its optimised access height, keeps food fresh whilst on the move. An additional drawer beneath the freezer compartment offers even more storage space.

NOCTRA Liner – more space, more comfort, more of an experience

A spacious face-to-face seating area creates an open feel and offers noticeably more space to relax – even for four people. Ideal for fellow travellers: an optional fold-down bed at the front. If you're looking for an even greater sense of space, opt for the elegant front extension. A sophisticated lighting concept with dimmable ambient lighting ensures a pleasant atmosphere. Natural light floods into the living area through generously sized, standard roof windows, creating a bright environment. Smart features such as an illuminated handle on the new body door, as well as the 'Coming Home' and 'Leaving Home' functions, add further touches of style.

NOCTRA LINER – THE NEXT GENERATION OF INTEGRATED LUXURY MOTORHOMES

A luxury loft on six wheels: the interior of the NOCTRA flagship sets new standards with its high-quality details.

NOCTRA-quality as standard: worktop made from high-quality solid surface material.

Luxury travel – with a seamlessly integrated design combining the driver's cab and seating area.

It doesn't get much more luxurious or spacious than this – NOCTRA Liner 8.3 L

Alongside the NOCTRA Liner 7.6 L, another model highlight is waiting to be discovered in the 2027 season: the FRANKIA NOCTRA Liner 8.3 L. This luxurious three-axle model is the flagship of the new generation of integrated liners. At over 8 metres in length, it offers even more of everything – even more space, even more luxury, even more smart features. Perfect for anyone who wants the very best.

In the NOCTRA Liner 8.3 L, the driver's cab and seating area flow seamlessly into one another, creating a spacious, open-plan layout. High-quality materials and well-thought-out details characterise the interior of this three-axle model. The largest kitchen in the NOCTRA range offers plenty of worktop space and comes as standard with an elegant worktop made from solid surface material. Large panoramic windows provide plenty of natural light and a spacious, airy feel. The smartly integrated TV between the kitchen and the huge face-to-face seating area can be conveniently operated via touchscreen. The floor-to-ceiling wardrobe is just one of the many comfort highlights of this luxury motorhome. An additional front lift-up bed is available as an option for journeys with up to four people. The standard front extension not only looks exclusive, but also enhances the feeling of spaciousness throughout the living area.
